

Dear members,

As a valued member of our community, we want to make sure you're among the educators, leaders and innovators shaping the future of education across Asia and beyond. Here's what's waiting for you at [EDUtech Asia 2026](#), and how to claim your exclusive member discount.

1. World-class voices leading the conversation

EDUtech Asia 2026 brings together over 350 speakers, among them internationally recognised keynote thought leaders from across the education world.

Whether you're looking for inspiration, validation of your own direction, or a fresh perspective to bring back to your institution, the keynote stage delivers.

Joining the stage, Danny Liu (University of Sydney) and Chia Hai Siang (Ministry of Education, Singapore)

2. 110 sessions. Every angle of education covered

Spanning two full days and four dedicated stages, the EDUtech Asia 2026 conference programme is built by practitioners for practitioners. With 110 sessions across 11 key themes, including AI curriculum, future jobs and tech-enabled pedagogy, deep dive into the challenges and opportunities institutions are navigating right now.

3. Get hands-on the day before the main event

On 3 November, 3-day pass holders can join practical workshops led by leading educators, giving you actionable skills and frameworks.

From building your school's AI roadmap, to designing active learning frameworks, to constructing your own AI learning tools without writing a single line of code, these workshops are a conference within the conference.

4. 8,000 peers. One room. Limitless connections.

EDUtech Asia is the largest gathering of educators and EdTech professionals in Asia. With 8,000 attendees from schools, universities and institutions across the region and beyond, the networking opportunities are unmatched.

Exchange ideas with fellow educators, build partnerships with solution providers, connect with peers who are solving the same challenges you are.

5. 200+ solutions providers to discover — free to explore

The exhibition hosts over 200 of the world's leading education technology providers, from global giants like Google for Education and Lenovo, to cutting-edge startups in the dedicated Startups Zone.

Whether you're evaluating your next LMS, looking for AI-powered classroom tools, or exploring emerging ed-tech you haven't heard of yet, the exhibition floor is where you'll find it — all under one roof in Singapore.
